### Title 38, USC 3679(e), The Colmery Act

**Sec. 103 states:** Disapproval for purposes of educational assistance programs of Department of Veterans Affairs of certain courses of education that do not permit individuals to attend or participate in courses pending payment: This provision would require that in order for a school or training program to be approved for GI Bill benefits they must adopt a policy that disallows the school or training program from imposing a late fee, denial of access to facilities, or other penalty against a veteran or eligible dependent due to a late payment of tuition and/or fees from VA.

This would only apply if the payments have not been received within 90 days of the beginning of the term and the Secretary would have the authority to waive this requirement. Schools would be allowed to require students to provide documentation to ensure that they are entitled to GI Bill benefits.

The restriction on penalties would not apply in cases where the student owes additional payment to the school beyond the amount of the tuition and fee payment from VA to the school. VA would have to make payments to schools no later than 60 days after receiving the tuition and fee certification from the school, and they would have to report semiannually to Congress any cases in which VA fails to make such payments within 60 days of certification.

The Rocky Mountain Laser College complies with VA Title 38, The Colmery Act by stating:

1. For each semester of enrollment, protection for covered individuals begins when the student provides the school with a COE or statement of benefit and requires that the school:
  - a. Cannot deny a student access to classrooms, libraries or other institutional facilities available to other students who have satisfied their tuition and fees.
  - b. Cannot make the student borrow money to cover the cost while waiting for payment.
  - c. Cannot charge a student a late fee or penalty.
2. Protection period ends when VA makes payment or 90 days after the date the school certified tuition and fees, whichever is earlier.
3. This policy applies to all Chapter 31 and Chapter 33 students

## STUDENT COMPLAINTS

Student Complaints should be brought to the attention of the School Director to attempt resolution. The Director and student are to follow the grievance procedures according to school policy printed in the school catalog. The student must file a written complaint online with the Division of Private Occupational Schools at [higherred.colorado.gov/dpos](http://higherred.colorado.gov/dpos).
